Lung Cancer Awareness Month
Toolkit
November, 2009

Please consider using the attached materials for education and information for members of your faith community. Lung cancer is the leading cause of death from cancer. Prevention, detection and treatment are all aspects we can learn more about.

The materials are intended to be used in a newsletter, bulletin, and/or handout format. Information may be obtained from the following web sites:

http://www.lungcanceralliance.org/involved/lcam_month.html

<http://www.lungcanceralliance.org/facing/about.html>

<http://www.lungcanceralliance.org/facing/documents/LCAFundingFactSheet2009Final.pdf>

<http://www.lungcanceralliance.org/press/faceinthefight/documents/Ripken.pdf>

http://www.cancer.org/docroot/CRI/content/CRI_2_4_1x_What_Are_the_Key_Statistics_About_Lung_Cancer_15.asp?sitearea=

<http://www.mayoclinic.com/health/lung-cancer/DS00038/DSECTION=prevention>

If you would like materials to create a display for a bulletin board, you may access a power point on the Congregational Health web site at:

<http://clergy.centrahealth.com/WebPages/conghlth.aspx>

The power point may be printed out, and pieces cut and pasted to suit a display on a bulletin board or other area.

This is another area where we can be more informed. We have a responsibility, as people of faith, to be stewards of this gift of life in every aspect that we can. Any cancer diagnosis is life-changing. We can learn more in order to help each other.
